1994 MOFFETT RACE SUMMARY  
9/10/94

Saturday 9/10/94 was a great day on the water. Most everybody had fun and good competition. We were very lucky on the weather; the forecast being a day too early; but the northerly wind came up and allowed a start. Although it died for a while on the first leg it picked up again; the shift at around 13:30 was particularly helpful to boats in the favored part of Cow Bay. We had 56 paid entries, 54 starters and 52 finished.

Summaries of the race results are attached. Please note that although the elapsed times are recorded to the second they are rounded to the nearest 0.1 of a minute when converted. This makes sense since the allowances are rounded to the nearest minute. However, this means that boats that finished within a few seconds of each other may show the same elapsed time e.g. Westray 1 second ahead of Contagious. Similarly, if time is counted and converted exactly to the second Hot Foot beats Magic Time by 1.8 seconds on corrected time instead of showing a tie.

Overall the race was very successful although it was slow compared to other years -- top speed of 5.12 knots is about 1 knot below usual. The first 10 boats were within 10 minutes of each other on corrected time and there were high allowance (i.e. small) boats scattered through the top 20. With some exceptions the boats that were expected to do well were in the top half of the fleet. A number of boats had difficulty on the first leg losing their wind and having trouble getting restarted.

If you look at the ranking on elapsed time the order of finish generally runs with the allowance, indicating the handicaps are in the right order of magnitude. Naiad, the winner, at 16 minutes is a little out of line, but they sailed very well, especially on the first leg, went inshore in Cow Bay and caught the wind shift.

A few participants asked me about splitting the fleet into two divisions. If we're going to do this we need to start planning well ahead of next summer because there are fairly major problems to resolve. The start this year wasn't too bad, but many boats were very late and the skewed line attracted enough skippers to the northerly half so there wasn't a bad jam.

Several of you have suggested that we get together and review these results while the race is still fresh in our minds. So please meet Thursday 9/15/94 at Harry Duane's house at 7:30PM.
